## Get Summer Beds Now

In the fall with winter coming on you may "get along" with the old "air-stopping" wood beds.

But a solid high headboard and footboard are not as comfortable in summer as one of those delightfully cool iron and brass beds.

They look delightful in a room full of summer sunshine—with their spotless white enamel and glistening brass.

They give free circulation to the cooling night air currents. Satisfying in appearance, comfort and price.

White and Colored Enamel Beds, brass trimmed, \$4.50 up. Special Brass Bed—full size: two-inch Post; six Fillers; dull or polish finish, \$13.50.

Other Brass Beds, all prices, up to \$50.00.

## Rugs That Reduce Temperature

Ben Franklin, one winter day, laid three large squares of cloth side by side on a field of snow.

The cloths were black and red and white.

After a few hours he removed the cloths and found that the snow under the black cloth had been melted completely; under the red cloth the snow was partly melted; under the white cloth the snow was not melted at all.

Black and all dark colors are warm, while white and the lighter tints are cool. They do not hold heat.

Light tinted rugs and draperies, therefore, are delightfully appropriate for summer.

They should be put on like a summer dress. They make you cool and comfortable.

An argument in favor of these summer comforts is their small cost.

Anyone can afford to enjoy this inexpensive luxury of summer things. New arrival of light weight Rugs for warm weather, in "Crest," "Birma," Fiber and Matting in small and carpet sizes.

## "E-Z" Hammock

The Easiest, Most Comfortable Hammock Made.

The E-Z combines in one article the best features found in the ordinary style of Bed Hammocks, and also several new ones.

The body part is made in either Khaki, Green or White, of a strong heavy canvas.

The Back or Windshield has a bar at the top which keeps the canvas smooth and prevents sagging. By a simple adjustment the Windshield may be lowered, the bar making a suitable arm rest. These are both very desirable features.

The seat or bed portion is National spring fabric, galvanized links, attached to a tubing truss frame, by helicals, making a very strong, resilient hammock, so easy to the occupant, that from this feature the hammock takes its name.

The E-Z is furnished with soft pad mattress, tufted, covered with either Khaki, Green or Red cloth, as preferred, and has a deep valance, giving a handsome decorative appearance that is very attractive.

There is no canvas under the National Spring bottom to catch and hold dust or dirt.

The truss underbody is curved upwards near each end, so that if desired the hammock may be placed upon the floor and used as a cot.

We anticipate a large sale on this Hammock. We now have this Hammock displayed on our floor on a tube frame, that affords an opportunity of trying the Hammock and realize the comfort obtained. A cordial invitation is extended to one and all to call and inspect.

A little cool just now to talk Hammocks, but get one now and be all ready for the next hot wave.

We also have the best assortment of high-grade Swing Hammocks that we have ever carried. These also are displayed and ready for your inspection.

SENI-CENTENNIAL

Of 3rd Vermont Volunteers Is Proposed In St. Johnsbury.

St. Johnsbury, May 10.—Plans are now being made for a semi-centennial reunion of the old 3rd Vermont regiment at St. Johnsbury on the 18th of next July. The 3rd Vermont was organized here on the 18th of July, 1861, with Colonel Baster at its head. After marching about town for several hours they were marched to the fair grounds for the first encampment. There Gov. Fairbanks presented them with their colors. The colors were saved to the boys in every conflict and are at the State House in Montpelier to-day.

Far-seeing members of the St. Johnsbury Commercial club proposed the celebration and later a committee of the 3rd Vt. was invited to take dinner with the club and make plans for the celebration. Everything worked satisfactorily and a committee was sent to the secretary of the 3rd Vt., Ex-Gov. Pingree, who heartily agreed with the proposed plans.

The local committee, having the celebration in charge, is composed of Rev. Edward Fairbanks, Charles T. Walter, Rev. George W. C. Hill, Raymond Pearl and M. G. Benedict. It is proposed to have the old veterans come together in the morning, carry out whatever details they may wish to observe, and then be waited on by automobiles provided by the Commercial club. The autos will carry them over the same streets, over which they walked fifty years ago, just before going to the front. They will be conducted to the old fair grounds where a marker will be unveiled with fitting ceremony and short addresses will be made commemorative of the anniversary of the occasion.

About one hundred members were on the roster and it is thought that fully forty or fifty will be able to return to the old scenes.

ILL BUT SHORT TIME.

Harry M. Cross of St. Johnsbury, Prominent Young Man.

St. Johnsbury, May 10.—Harry M. Cross, only son of George H. Cross, and manager of the George H. Cross company, died yesterday at his home on Portland street, after a short illness of three days. He worked at his office last Saturday, but did not feel as well as usual when he returned home. Doctors were not summoned until late in the day Sunday, at which time the patient was considerably worse. A course of doctoring was held, consisting of Doctors Crampton, Aldrich and Ross, and it was decided that the patient was suffering from acute Bright's disease. He grew rapidly worse until about ten o'clock yesterday morning when he died.

He was a prominent young business man of thirty-one years. Five years ago he was married to Miss Anna Somerville of this place. His father and mother, Mr. and Mrs. George H. Cross left St. Johnsbury a few days since for a short sojourn in the South, primarily to attend a meeting of the Sons of the American Revolution. Just what part of their itinerary has been reached by them is not known and at this time they have not learned of the death of their son. It is thought that they will be located near Washington. Arrangements for the funeral will be postponed until word can be got to them.

NORTHFIELD.

Roger W. Hulburd of Hyde Park is to deliver the Memorial day address here.

Maurice Hiram Collins and Miss Elizabeth S. Whitmarsh, both of Rutland, were married Sunday in that city by Rev. G. F. Fortier. They will reside there. Miss Whitmarsh lived in Northfield until a few years ago and is a sister of C. N. Whitmarsh.

The largest and finest statutory that ever left Northfield is ready for shipment at the Brusa Granite company sheds, including six statues cut from Rutland white granite for the Union depot at Washington. Others are to be completed later.

## We Are Not Always Right

but we are getting our mistakes so far apart that you will have to watch us pretty closely to detect our errors. We do not intend that you will find us standing still. Every season must show up better than the season before. In order to do that it is necessary for us to turn every mistake into a solid footing for our future success. With us it is a constant study to know where we can get the best values possible for the trade. And in order to do this it is necessary for us to keep in close touch with the market. Through the season you will find that every day brings new values into the departments.

### "Decadent" Massachusetts.

It will be remembered that a goodly share of the strictures upon Vermont, referring to her "decadent" condition based upon the recent census figures, have emanated from Boston and various papers of that city have been calling upon the Green Mountain state to "wake up" and similar vehement exhortations.

Well what about Massachusetts? Here is something decidedly pertinent from a recent editorial in the Springfield Republican:

"This continued urban concentration suggests continued population decline in the hill towns, and the census results bear out the inference. Since 1890 only 27 towns show a population decrease, but since 1900 no less than 124 towns have either been standing still or declining; and 17 of these are found in Berkshire county, 17 in Franklin, 12 in Hampshire and 10 in Hampden—a total of 56 for western Massachusetts, while Worcester county more surprisingly adds 30 to the list. Some of these towns lost heavily. More than half of Wales' population of 773 in 1900 had disappeared by 1910; Tolland lost 34.5 per cent.; Washington, 25.5; Montgomery, 20.5; and so on through a long list. We now for the first time in many years have a town of less than 100 people—New Ashford in Berkshire county, which had a population of 460 at the first federal census in 1790, and which has now fallen from 107 in 1900 to 92 in 1910. Next to New Ashford stands Mount Washington, in the extreme southwest corner of the state, with a population now of 110 against a maximum of 474 in 1810."

Poor old Massachusetts! These figures are appalling. A state rich in history, the cradle of the Pilgrims and once great in all that makes for progress and advancement, yet these statistics—figures that a Rositter would revel in—show retrogression and decadence that make one shudder—Enosburg Standard.

At the Chauffeurs' School.

"Now, sir," said the examiner, "suppose you were climbing a steep hill and your power should suddenly give out and the car begin to slide backward in the direction of a precipice, what would you do first?"

"I'd yell for an ambulance and telegraph my wife where to find my accident insurance policy," said the pupil.—Harper's Weekly.
